DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 33-35 are rejected under 35 U.S.C. 102(b) as being anticipated by Thompson et al.

3. Thompson et al. teaches a method for heat-treating a fabric comprising first and second polymeric components (note column 6, lines 58-67) comprising heating the fabric to various temperatures, including temperatures in the range slightly below the melting temperature, while holding the fabric under slight tension (note column 11, lines 44-52).

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Okada et al., Joest et al., Bhat et al., and Hermann teach similar methods and apparatus for heat-treating a fabric.
